Exp. 5 Uploading Class Diagram in Azure DevOps Wiki

DEFINITION:

A **Class Diagram** is a UML diagram that represents the static structure of a system. It shows classes, their attributes, methods, and relationships between them.

PURPOSE:

• To represent the structure of a system

• To show relationships between classes

• To model object-oriented design

BASIC COMPONENTS (Notations):

1. Class

• Represents an entity in the system

• Drawn as a **rectangle divided into three parts**:

- Class Name
- Attributes
- Methods

Example: User, Admin

2. Attributes

• Represents properties of a class

• Written inside the class box

Example: name, id, password

3. Methods (Operations)

• Represents functions of a class

• Written below attributes

Example: login(), register()

4. Association

• Shows relationship between classes

• Represented by a **straight line**

5. Aggregation

• Represents a “has-a” relationship (weak relationship)

• Shown by a **hollow diamond**

6. Composition

• Strong relationship (part of whole)

• Shown by a **filled diamond**

7. Inheritance (Generalization)

• Represents parent-child relationship

• Shown by an **arrow with hollow triangle**

HOW TO UPLOAD CLASS DIAGRAM

AIM:

To upload a Class Diagram in the Wiki using Azure DevOps.

TOOLS REQUIRED:

• Azure DevOps

• Web browser

• Class Diagram image (PNG/JPG)

PROCEDURE:

Step 1: Open Azure DevOps

• Go to Azure DevOps

• Sign in with your Microsoft account

Step 2: Select Project

• Choose your existing project from the dashboard

Step 3: Navigate to Wiki

• Click on **Wiki** from the left menu

• If Wiki is not created:

o Click **Create Wiki**

o Select **Project Wiki**

Step 4: Create New Page

• Click on **New Page**

• Enter **Class Diagram**

Step 5: Upload Diagram

• Click on **Insert Image (image icon)**

• Choose **Upload from Computer**

• Select the **Class Diagram file**

• Click **Upload**

Step 6: Save the Page

• Click **Save**

Step 7: Verify Upload

• Ensure the Class Diagram is displayed correctly

RESULT:

Thus, the Class Diagram was successfully uploaded to the Wiki using Azure DevOps.
